

Edge Cloud: A Key Feature for 5GtoB

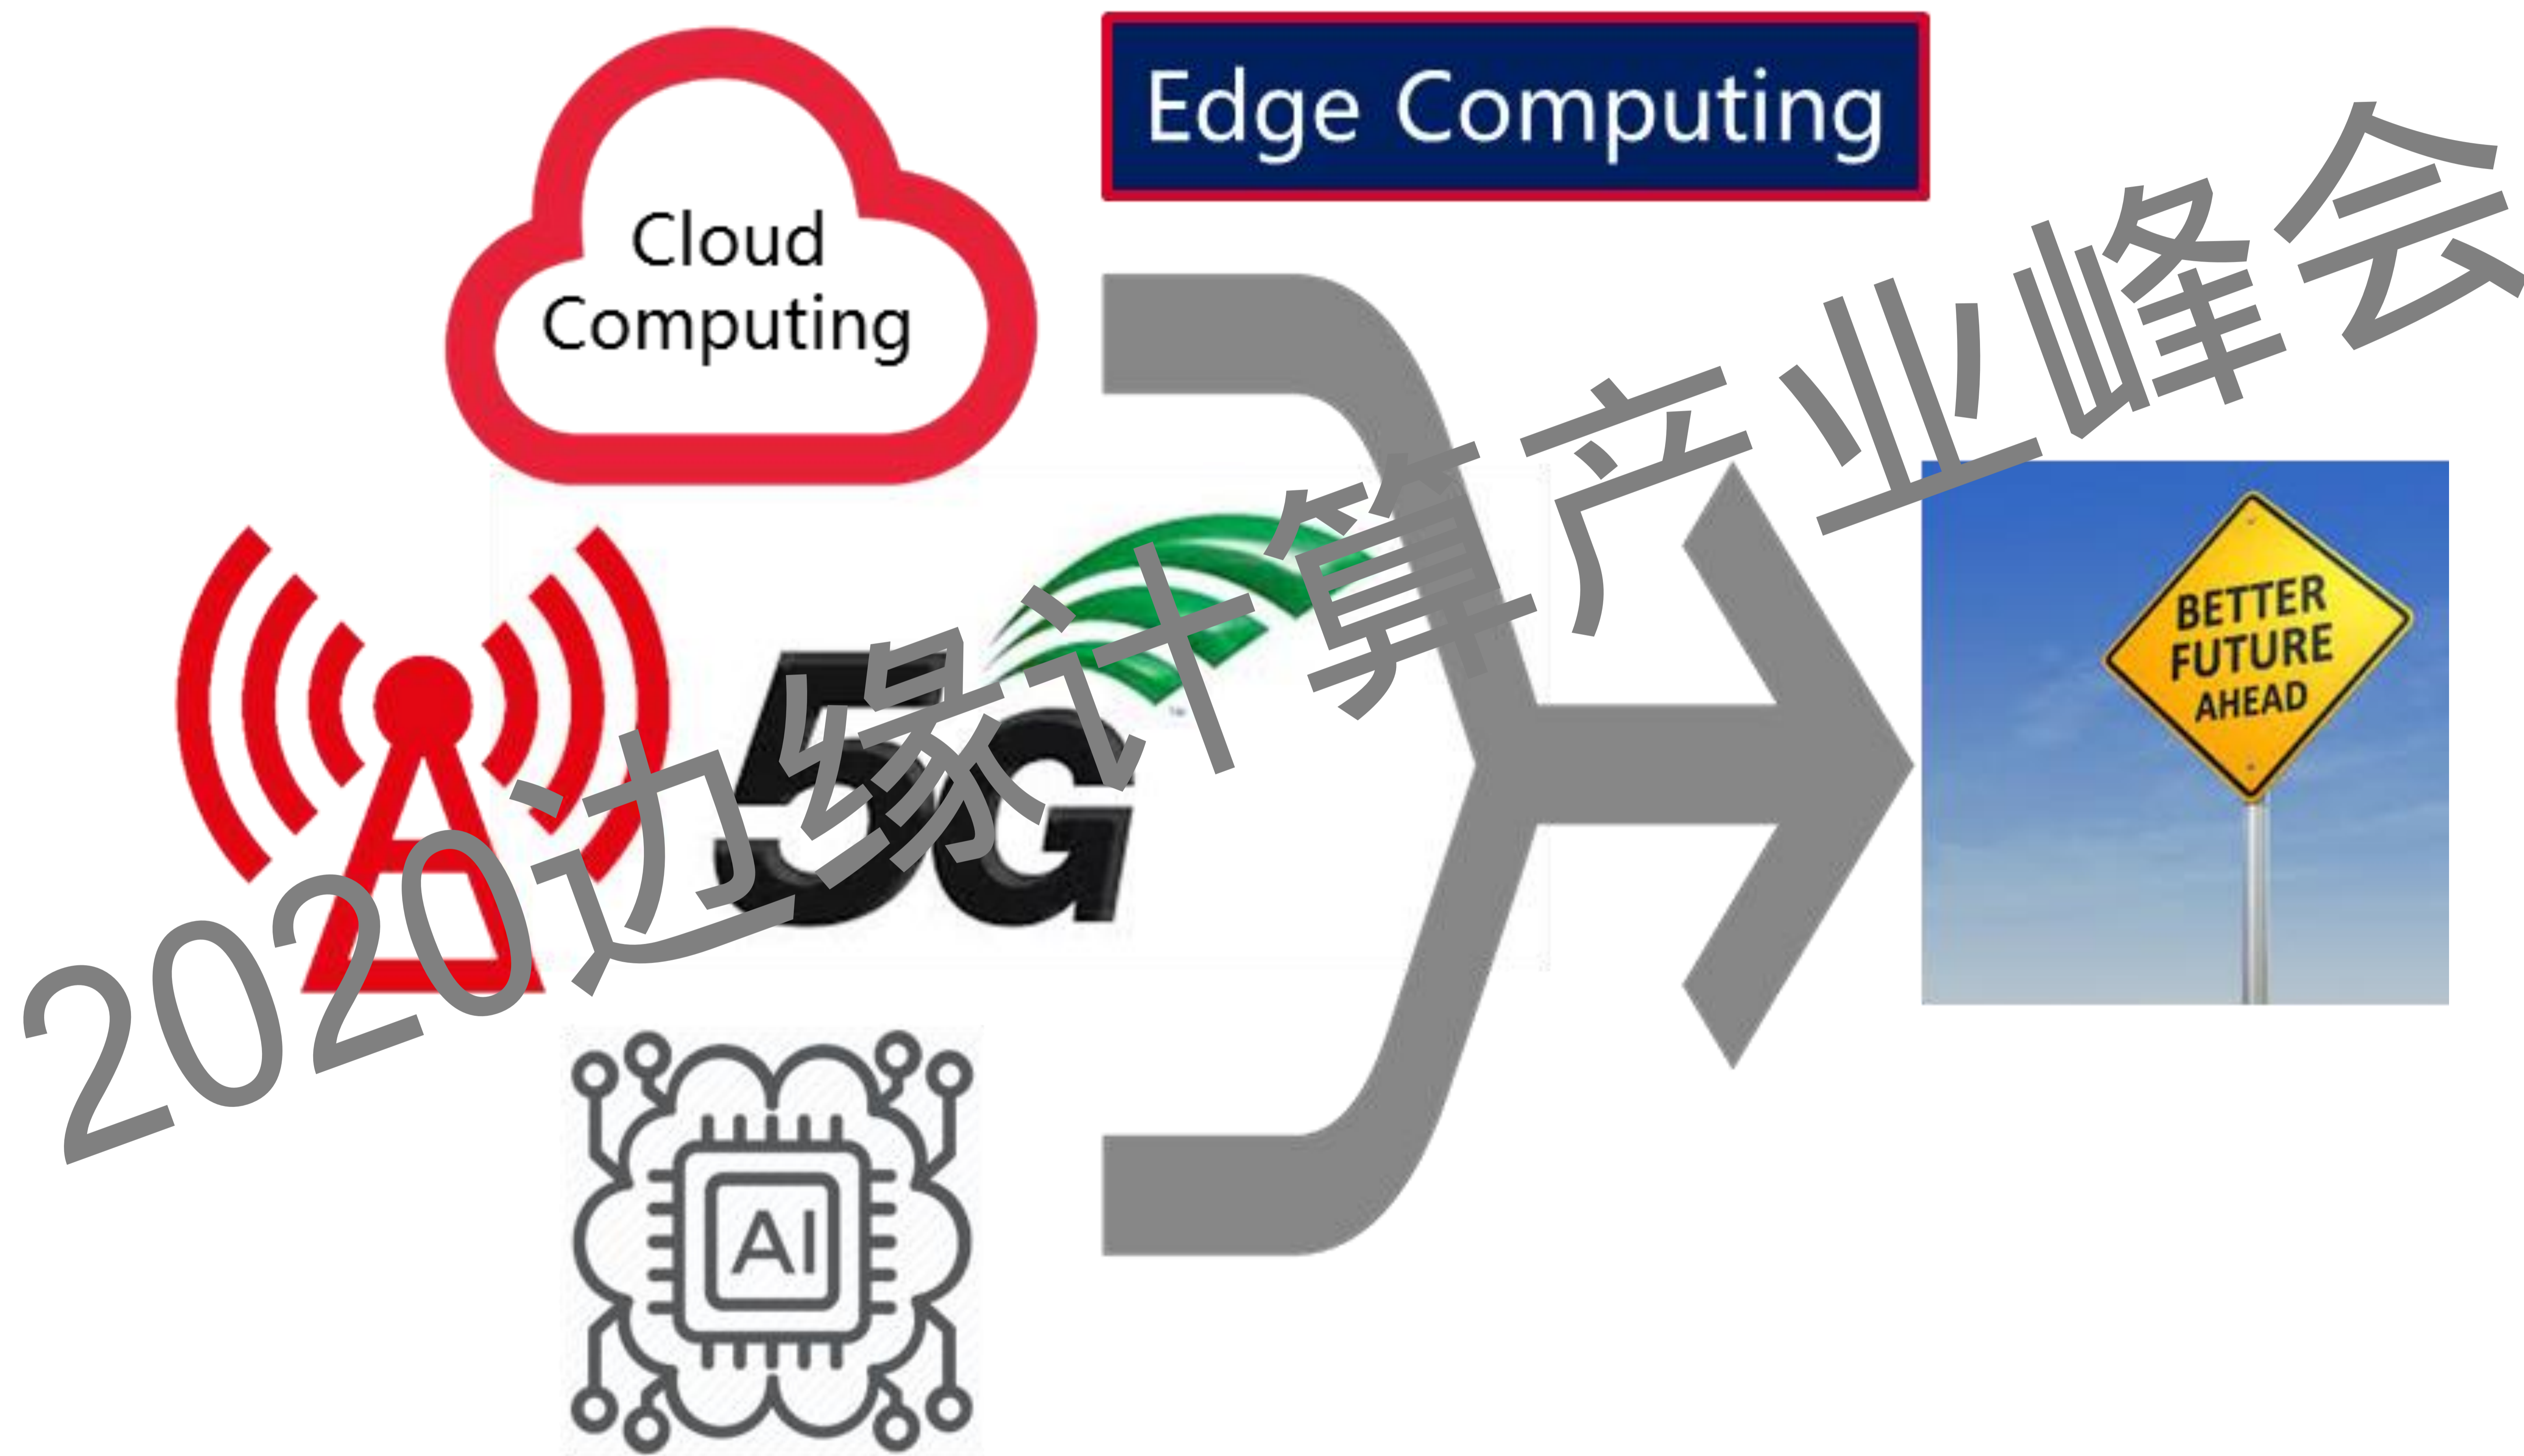

Hong Liu

Head of Technology, Greater China, GSMA

Recap...

Recap 2 ...

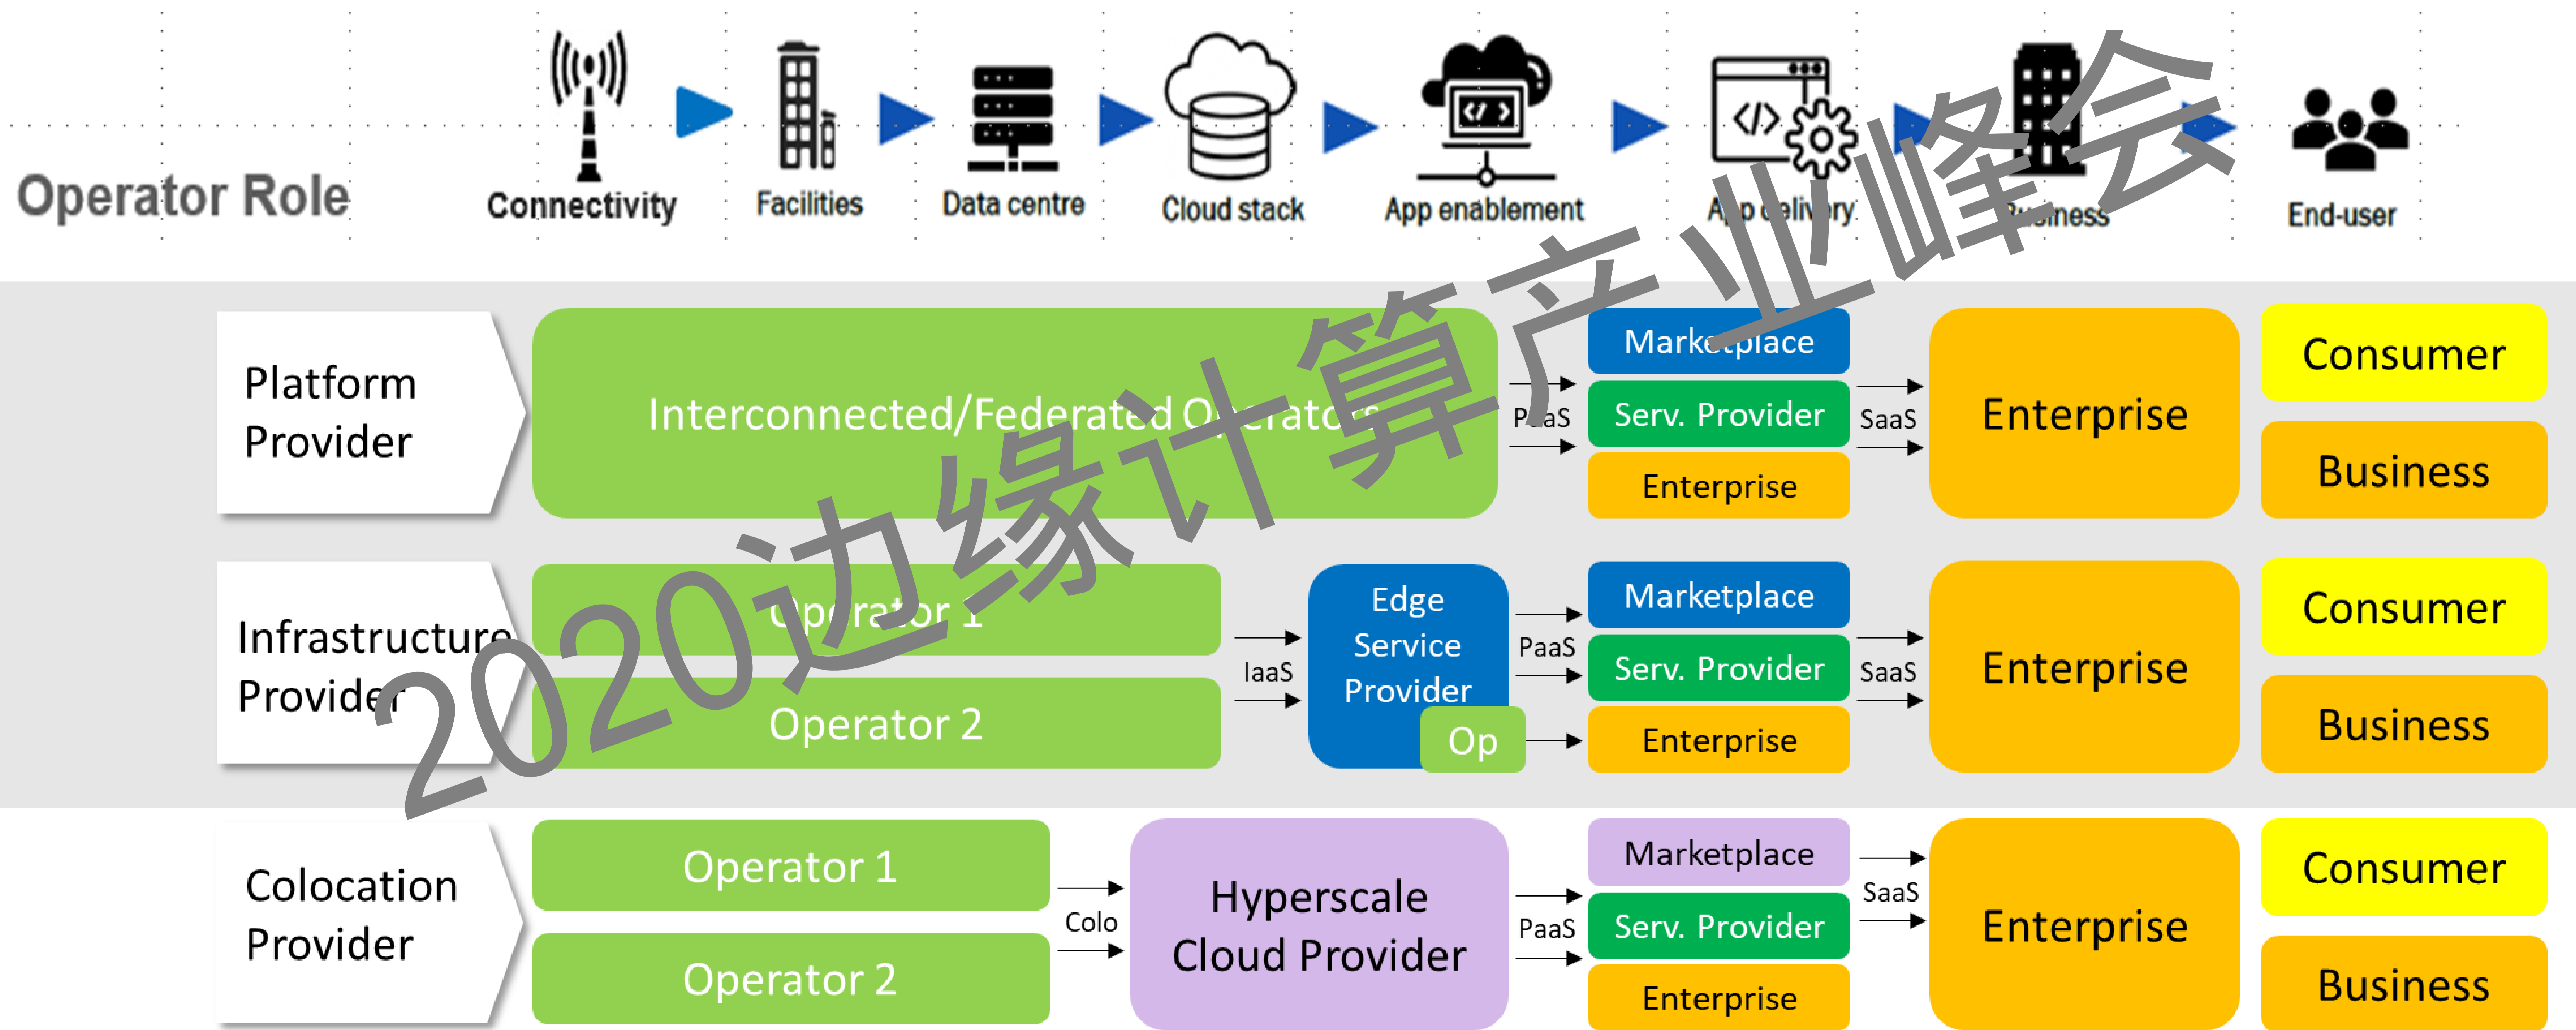

Edge Cloud:

the **Largest, Most Important** and **Earliest** Edge
Computing use case

2020边缘计算产业峰会

Operators' roles in the Edge Cloud Value Chain

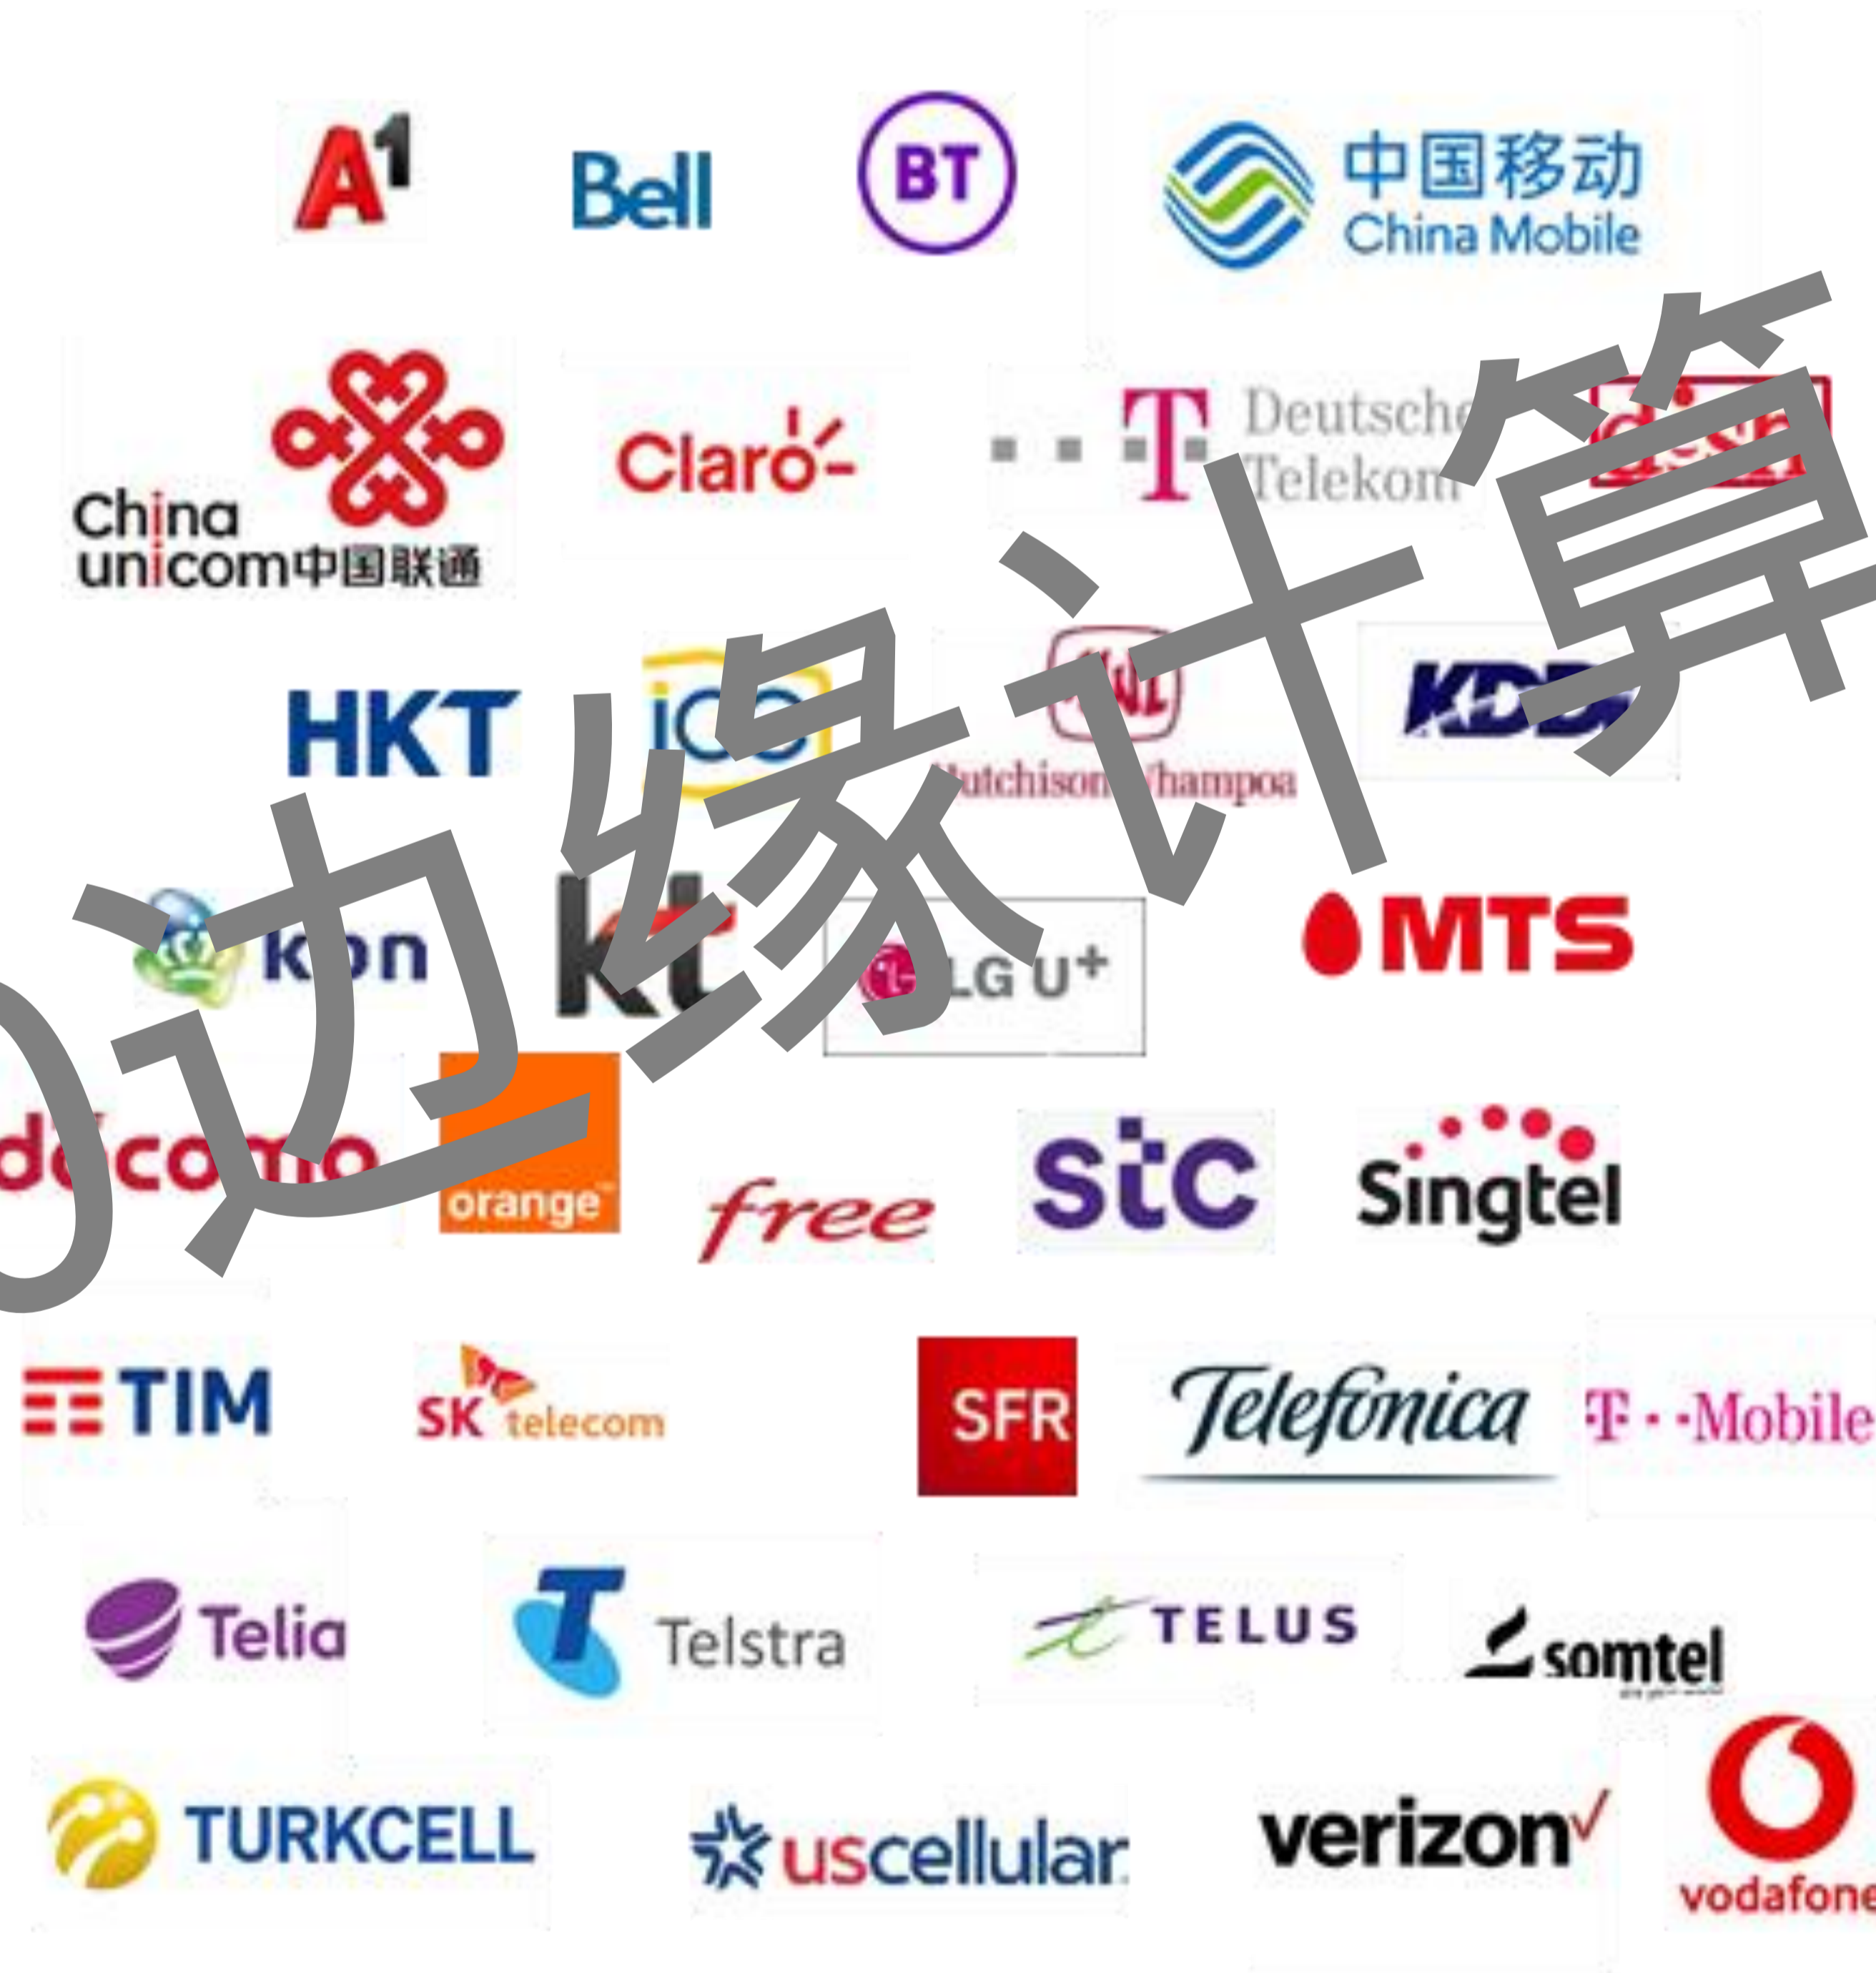

Operator Platform Group (OPG)

Operator Platform
Group (OPG)

- **Architecture, technical requirements**
- Liaison with SDOs for technical specs and OSCs for open source code

30+ Operators

20+ Vendors

200+ members
Nov 2020

TEC (Telco Edge Cloud) Trials

Operators

Participants

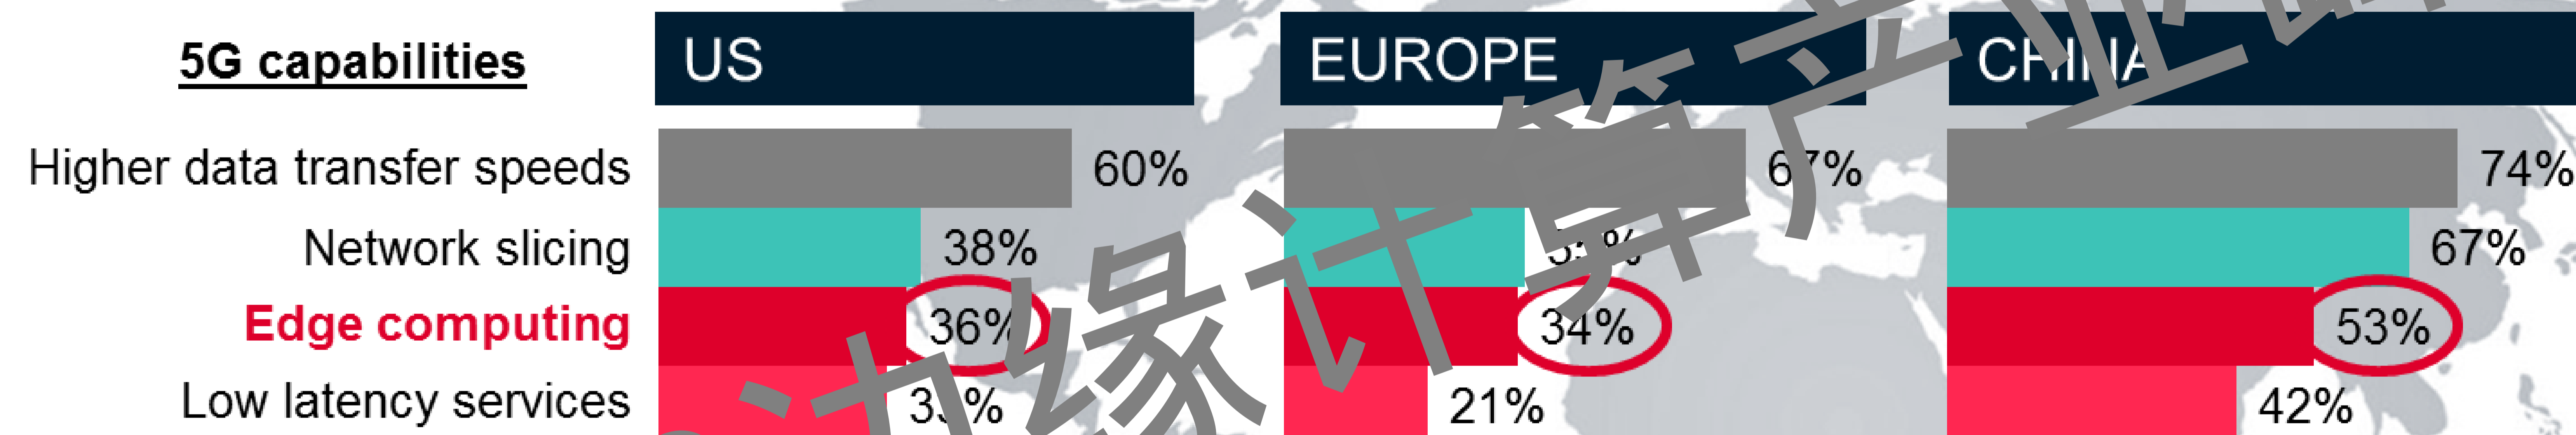

- Examples use cases include: Manufacturing/IoT, AR/VR in manufacturing and broadcasting, Gaming, Healthcare, Automotive and blockchain and more
- Contact futurenetworks@gsma.com to be considered in future!

Recent trend:

more **Cooperation** than competition (31% vs 22% in our survey)

2020边缘计算产业峰会

Finally, enterprises are embracing Edge Computing ...especially in China

- Globally, ~40% of enterprises find 5G edge capabilities compelling for their future IoT deployments
- China leads on IoT deployments, edge computing awareness, and enterprise intent to use edge capabilities for IoT

THANK YOU!
